

CIFF PARIS

CIFF Paris

21 – 24 June 2019

Copenhagen International Fashion Fair is taking over Garage Amelot during fashion week in June. Designed as a dynamic creative hub, CIFF Paris will showcase a diverse curation of pre- Spring'20 Womenswear and Spring'20 Menswear, alongside Special Projects with Collaborators & Artists - all soon to be announced.

Emerging brands & designers, balanced with established names, will bring fresh innovative ideas to CIFF Paris, to further challenge, engage and inspire the industry.

“Paris is long established as the fashion capital of the world, where the industry converges. CIFF Paris will add another dimension at Garage Amelot during the upcoming fashion week by providing the perfect energy for our community to engage and connect, to push boundaries, to drive business and is also an opportunity to add some of our Danish culture of sharing and sustainability” says Kristian W. Andersen, Chief Innovation Officer of CIFF.

CIFF has built an energetic, progressive, and creative global community through innovation and by blurring the boundaries between art, fashion, sport and cultural urban planning.

JUNE 21–24
