PITTI GAMES is the theme of this edition!

The summer, and 104th, edition of Pitti Uomo will be held in Florence from 13 to 16 June at a Fortezza da Basso defined by guest designer Eli Russell Linnetz, founder of ERL. Pitti Uomo is the kickoff of the new season, the junction point for new talents, the "must showcase" for big brands and the stage for once-in-a-lifetime – or season – events. It is a Pitti Immagine production, and in four days will present a thoughtful and sensible overview of what is happening on the world's main fashion scenes: the most interesting designers, emerging brands, special projects staged by big names which, between fashion, artistic expression, and multimedia productions, turn the spotlights onto Florence.

This edition's format strengthens some of the innovations presented in January and aims at expanding and enhancing the fair. The result is a dynamic and fluid path along the Fortezza grounds, that is never taken for granted because it is studded with unusual concepts and crossover offerings that speak to the markets' new needs and demands.

"People want to come back to Florence and meet. That is what we perceived during the months that we were working on this new edition of Pitti Uomo. Our event always garners more appeal, even at a time that is definitely not easy for the fashion industry. And, it is always chosen and rewarded as the not-to-miss setting for earning recognition and meeting one's international clients," said **Raffaello Napoleone, CEO of Pitti Immagine**.

Eli Russell Linnetz - ERL

is bringing his creativity into the heart of the Fortezza da Basso

Californian designer Eli Russell Linnetz, - guest designer at the summer edition of Pitti Uomo – founder and driving spirit of the ERL label, as well as a multifaceted artist, creative and creator of worlds, will be transforming the main forecourt of the Fortezza da Basso into a theatrical set that expressly refers to a famous Hollywood blockbuster. Between imagination and creation, between the true and the probable, Eli constructs stories in Technicolor which we can view as spectators and take part in as actors. It is the game of “let’s pretend”, of “make believe”, of the dream, and not just the American one, in which to intensely believe.

PITTI GAMES: the new theme for the Pitti Immagine summer events.

The watchword is games. Because gaming is playful and challenging, but above all it is creativity, synonymous with energy, commitment, and a desire to win. All the ingredients that Pitti Immagine puts together through fashion and lifestyles and which – thanks to Leonardo Corallini’s staging and creative director Angelo Figus’s coordination – come together in the ad campaign.

“PITTI GAMES is a theme that works wonderfully with the climate of optimism surrounding our preparations for the season’s fairs,” said **Agostino Poletto, general manager of Pitti Immagine**. “This is what prompted us to envision the Pitti fairs as a huge gaming table where to have fun, but also to play it all, bet on yourself and your strategy, to think about your opponent and partners, to come out of that comfort zone, take a chance, be individualistic or a team member. Ponder, take a shot, maybe bluff, mix, shuffle, put your cards on the table. In brief, gaming offers lots of inputs – for life in general and for our profession.”

The protagonist brands

825 brands in total

43% of which from abroad

All the brands participating in Pitti Uomo 104 at the Fortezza da Basso are also showcasing their collections on the Pitti Connect digital platform.

The Pitti Uomo itinerary

The exhibition spaces in the Fortezza da Basso will be welcoming the multifaceted and international world of Pitti Uomo. The five sections - *Fantastic Classic*, *Futuro Maschile*, *Dynamic Attitude*, *Superstyling* and *I Go Out* – will present the Spring/Summer 2024 collections: from the classical to the informal, passing through the world of research which will be maximized in the Sala delle Nazioni and the Arsenale.

Not just menswear, but lifestyles as well and – as befits a summer edition – all the most exclusive outdoor clothing from beachwear to camping and walking accessories. The special area dedicated to pets, successfully introduced at the last edition, is confirmed. Plus, new layouts for *I GO OUT* and *S/STYLE*.

New at the Fortezza:

Destination summer: a dual layout for I GO OUT

I Go Out, the section dedicated to international brands that produce clothing, accessories and objects for outdoor living, will be present in the Sala della Ronda with a new layout curated by **Sebastiano Tosi**, the Swiss designer, class of 1980, who is able to range from interior design to advertising and will be using an innovative material called i-Mesh, a technical and sustainable fabric for architecture.

But that’s not all. I Go Out interprets the desire for a new contact with nature and, at this edition, it will also feature the special participation of the Japanese brand, Snowpeak, with an original extension in an outdoor space in the Fortezza da Basso: it will feature new applications of the outdoor world with a meticulous selection of outfits and accessories connected to the worlds of cycling, walking and camping.
