

NANUSHKA

“Golden Arrow”

Pre-Fall 2018

Press Release

Nanushka's first ever Pre-Fall collection draws inspiration from the spirit of intercultural travels.

Imagine a train that can not only pass through different places, but also different times. It takes the traveller wherever their deepest desire, their inner 'Golden Arrow' points, with each stop-over leaving its enriching imprint. This unbounded journey manifests in the crossings of distant cultural references.

The first stop is the Wild West with soft denim pieces, leather details and the Nanushka signature snake buckle. Then follows Paris in the 50's with polka dot dresses and London in the 70's with gingham flares. From there, the South African Safari is next where the statement crocodile embossed leather and leopard stut dominate. The train terminates in the 1930's Far East where silk scarf inspired shapes, watercolor agate prints, pearl details and lustrous satin textures evoke the Oriental heritage.
