

# Ante Litteram *Collection*

Ante Litteram wants to challenge social rules, to reflect on traditional roles and freedom through the figure of Peggy Guggenheim, a trasgressive muse.

The Spring Summer collection pay her homage with her beloved art. Neutral tones enhance femininity in a masculine cut that emulates Peggy, who had never stopped being a woman in a man role.

Strength, tenacity, self-confident and irreverence are fused together with smooth silks and structured fabrics, creating an harmonious union.
