S/S 2019

The **(nude)** S/S collection 2019 is about optimistic day-glow and wearable cool fashion for a modern looking wardrobe able to flex across business and social events.

We want to communicate **ENERGY**.

There are two major themes that characterize the collection.

'Be Bold' features a maximalist approach to dressing playing with colourful, strong statements and 80's references. There is a spirit of athletic glamour where eveningwear meets sportswear with a 'keep-fit' attitude between sexy and sporty. All-over sequin embroidery, from small to giant, embellish fabrics and knits. Fluorescent colours, big vertical stripes come along with mimetic jacquard and intarsia-knits, whereas clashing florals with tapestry effect is paired to diagonal stripes for an anarchic style of mix and match. Volumes are simple and straight but always with a feminine twist.

The looks are instinctive and personal for a revival of a casually confident femininity.

'Pure Volume' is a contemporary edit of 90's fashion. There are technical organzas, superlight cotton popeline laminated with pearl effect, an arty animalier print on cotton voile. Pure linen for voluminous tops, dresses and a jumpsuit have a notion of ease blended with lightness. Unexpected lingery layering, plissé for skirts and tops, ruches and volants add a touch of romantic. Nude-coloured, ribbed stretch knit, cotton yarn with slub effect laminated or embroidered create sensuous essential looks. Classic linen-checks are freshed up with pigment prints along with linen-mix chambray for denim styles.

There is always a sense of spontaneity with details that come from a personal place.

Colours are vibrant and vitalizing with lots of hypnotic metallics. The range goes from apple green, pine green and fluo-green to fluo-red, poppy red, zesty yellow and electric blue. Military, nude, chalkwhite, pink and black define the more sensuous minimalist palette.
